# About Us

**Established in 2023** with a vision of providing world class housekeeping services through a passionate and professional team

Professional Housekeeping & Facility Management for Leading Educational Institutions.

## Our Services

### Specialized Education Services

*Educational campuses have unique "zones" that require specific care:*

- **Classrooms & Labs:** Daily sanitization of high-touch surfaces like desks, chairs, door handles, and whiteboards.
- **Restroom Hygiene:** Intensive, multiple-daily cleanings of student and staff washrooms using hospital-grade, non-toxic disinfectants.
- **Cafeterias & Food Zones:** Specialized deep cleaning for food safety and pest prevention in dining areas and kitchens.

- **Libraries & Dormitories:** Dust-free, organized maintenance of sensitive book stacks and student residential blocks.
- **Outdoor & Play Areas:** Regular upkeep of playgrounds, assembly areas, and sports courts to ensure they are free of debris and safe for physical activity.

## Our Commitments

### The "Student-First" Promise

- **Child-Safe Cleaning:** Use of Eco-Friendly, Non-Toxic chemicals that are safe for students with allergies or sensitivities.
- **Strict Background Verification:** "100% Police-Verified & Background-Checked Staff" to ensure student safety on campus.
- **Groomed & Disciplined Staff:** Professionals trained to work discreetly without disrupting teaching sessions.

- **Academic Calendar Sync:** Cleaning schedules (like deep-cleaning window panels or carpet shampooing) timed during summer or winter breaks.

## Benefits for the Institution

- **Reduced Absenteeism:** Regular sanitization reduces the spread of seasonal flu and germs, keeping student and staff attendance high.
- **Focus on Core Mission:** Let teachers teach while we handle the facility. Administrators can focus on academic goals instead of managing cleaning crews.
- **Enhanced Reputation:** A sparkling campus creates a powerful first impression on prospective parents during tours and admissions.
- **Asset Longevity:** Professional care for expensive lab equipment, furniture, and flooring extends their lifespan, saving the institution money long-term.

### Compliance & Credibility

- **Regulatory Adherence:** Full compliance with Minimum Wages, PF, ESI and labour laws
- **Local Presence:** Pathways School Noida and Pathways Early Years, GK

# The Healthy Campus Checklist

*A Daily Commitment to Student & Faculty Well-being*

We follow a rigorous protocol designed specifically for high-traffic educational environments. Here is how we keep your campus safe:

## 1. High-Touch Point Sanitization (Every 4 Hours)

- **Entrance Points:** Sanitize door handles, push plates, and elevator buttons.
- **Learning Tools:** Wipe down shared keyboards, lab equipment, and whiteboards.
- **Safety Rails:** Disinfect stair railings and corridor bannisters.

## 2. Restroom & Hygiene Management

- **Continuous Monitoring:** Hourly check-sheets for cleanliness and odor control.
- **Stock Maintenance:** Guaranteed availability of hand soap, sanitizers, and paper towels.
- **Deep Disinfection:** Daily chemical scrubbing of floors and ceramic surfaces to prevent bacterial buildup.

## 3. Dining & Indoor Air Quality

- **Canteen Hygiene:** Sanitization of dining tables before and after every break period.
- **Dust Mitigation:** HEPA-filter vacuuming of library carpets and auditorium upholstery to reduce allergens.

- **Waste Segregation:**

Prompt removal of cafeteria waste to prevent pests and maintain a fresh atmosphere.

#### 4. Safety & Compliance

- **Safe Storage:** All

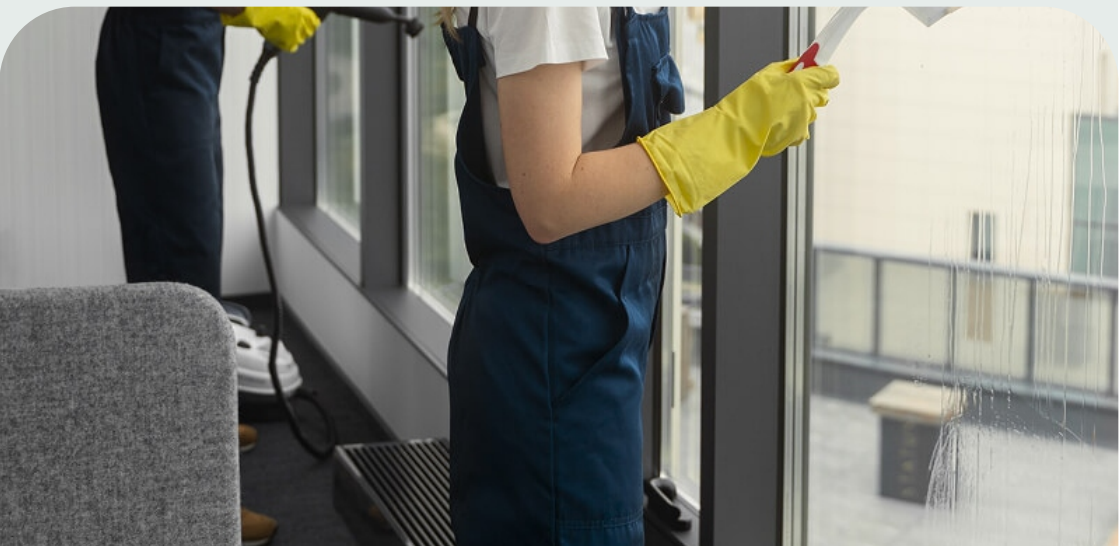

cleaning chemicals are kept in locked, student-inaccessible cabinets.

- **Non-Slip Assurance:**

Use of "Wet Floor" signage and quick-dry mopping techniques to prevent slips during school hours.

- **Staff Identification:**

Every housekeeper is in a clean uniform with a visible ID badge for campus security.
